

Reliance

Orthodontic Products

Reliance Orthodontic Products, Inc.
1540 West Thorndale Ave., PO Box 678, Itasca, IL 60143

Dear Doctor ,

Welcome to the Reliance family of orthodontic adhesive products!

As you will notice, we specialize in adhesive for all bonding needs, with all types of appliances, to any surface. Since our conception in 1981, we have achieved the reputation of providing consistent, quality adhesives, in a variety of delivery systems, at a cost far below competition. Before we sell a product commercially, it is clinically field tested. This thorough evaluation insures that each product performs to satisfaction for the full treatment time and is chemically safe for you, your staff and your patients.

As an added service to our adhesive customers, any bonding questions you have can be answered by calling me toll free at 1-800-323-4348 or email me at paulgropi@aol.com. We sincerely appreciate your patronage and look forward to continuing to serve your requirements in the months and years to come.

Paul Gange
President

Reliance Orthodontic Products, Inc.

Reliance Products are proudly manufactured and packaged in the U.S.A.

Please Note:

We are constantly adding new products to keep abreast of new technologies. If you do not see the item you need, or for details on future products, please contact us at 1-800-323-4348

TERMS AND CONDITIONS

ORDERING

To order Reliance Orthodontic Products, simply contact our home office Toll Free (in U.S and Canada) at 1-800-323-4348 or 1-630-773-3580. You can also order through our secure website at www.relianceorthodontics.com. There is a minimum of \$25.00 on all orders.

PAYMENT

Options: Net 30 days, upon approval. Past due balances may be charged 1.5% per month finance charge at the sole discretion of Reliance Orthodontics. We accept Mastercard, Visa and Discover for any purchase.

SHIPPING

All prices are F.O.B. Itasca, and are shipped via FedEx. All shipping is billed with the order. Alternate shipping services are available—please call for more information.

EXPORT

Export orders must be paid for in advance by proforma invoice.

TERMS

Net 30 days. Illinois residents please add 1.75% sales tax. An invoice is enclosed with each shipment. Payment should be made from this invoice. Any outstanding balance will be subject to a finance charge of 1.5% per month. All payments are due in U.S. funds

EXCHANGES or REFUNDS

Your satisfaction is Guaranteed! Reliance Orthodontics Products, Inc. guarantees that its products are of the highest quality and workmanship. If at any time prior to its expiration date your adhesive system fails to perform in a manner not consistent with the product, we will replace the remaining product with new material free of charge or issue a credit for the remaining product. No refunds, credits or replacement will be issued after 90 days unless the product is deemed defective by Reliance Orthodontics Products, Inc.. Products that are being returned to Reliance Orthodontics Products, Inc. must have a prior Return Authorization Number (RMA.) All products being returned for credit or replacement must be sent postage paid with a copy of your invoice and your RMA number clearly visible on the package, or the package will be refused by Reliance Orthodontics Products, Inc..

Rely•a•Bond®

No Mix Adhesive

Contents of Kit

- 14 g Adhesive Paste (Jar, Syringe Tips or Push Syringes) •
 - 16 g Primer, with or without fluoride •
 - 9 g Etching Agent (Liquid or Gel) •
 - Mixing Pad • Spatulas •
- Brushes (Sponge pellets may be substituted for brushes) •

Product Features

- **Contains Fluoride** - Rely•a•Bond® Primer is formulated with a monomer that contains fluoride and will not reduce bond strength. Non fluoride formula also available.
- **Unsurpassed Bond Strength** - Rely•a•Bond® is formulated with a highly filled paste that combines with a unique primer to produce a bond strength to etched enamel that virtually eliminates bonding failures.
- **Tacky Viscosity** - Rely•a•Bond® Paste is very tacky, which prevents bracket flotation and penetrates the finest mesh bases.
- **Variety of Paste Packaging** - Rely•a•Bond® Paste is available packaged in a jar, preloaded syringe tips or 3.5 g push syringes.
- **Extended Shelf Life (No Refrigeration)** - Rely•a•Bond®, like all Reliance Adhesives, has a unique catalyst system that does not require refrigeration.
- **Economical** - Approximately 850 bonds per kit, because only a small amount of primer and paste is required to produce maximum bond strength
- **Suggested Uses** - Bracket adhesive

Rely-a-Bond® Kits

- Rely•a•Bond® kit with Paste in Push Syringes with fluoride#RPF
- Rely•a•Bond® kit with Paste in Preloaded Tips with fluoride..... #RTF
- Rely•a•Bond® kit with Paste in Jar with fluoride..... #RJF

Separate Rely-a-Bond® Components

- 14 g Rely•a•Bond® Paste in Jar#RPJ
- 14 g Rely•a•Bond® Paste in (4) 3.5 g Push Syringes #RPP
- 14 g Rely•a•Bond® Paste in Preloaded Syringe Tips#RPT
- 16 g Rely•a•Bond® Primer with Fluoride.....#RPRF
- 16 g Rely•a•Bond® Primer without Fluoride..... #RPR

Also Available

- 14 g Rely•a•Bond® Thin Paste in (4) 3.5 g Push Syringes (for Indirect Bonding).....#RPPT

Phase II®

Sealant/Paste System

Contents of Kit

- 18 g Catalyst Paste (A) • 18 g Base Paste (B) •
- 7 g Bonding Resin (A) • 7 g Bonding Resin (B) •
- 9 g Etching Agent (Liquid or Gel) • Mixing Pad •
- Spatulas • Wooden Applicators •
- Brushes (Sponge pellets may be substituted for brushes) •

Phase II® available with the paste pre-packaged in jars or screw syringes

Product Features

- **Contains Fluoride** - Phase II® Paste and sealant are formulated with a monomer that contains fluoride and will not reduce bond strength. Non-fluoride formula available in jars.
- **Unsurpassed Bond Strength** - The highly filled paste provides a strong mechanical bond with all types of metal and ceramic bracket bases. All plastic and fiber filled brackets will bond chemically to Phase II® when conditioned with Reliance Plastic Conditioner.
- **Ease of Removal** - Phase II® has a small particle size glass filler which constitutes a high percentage of the material. The paste forms a solid matrix that bonds stronger to itself than it does to the sealant. As a result, the majority of the paste is removed with the bracket and what remains is easier to remove than conventional composites.
- **Smooth, Tacky Consistency** - The pastes mix to a viscosity that is easy to apply to the bracket base and will hold the bracket in position after alignment, without slump. The paste viscosity can be thinned for bonding lingual retainers by adding bonding resin to the mixed paste.
- **No Refrigeration Required** - Phase II®, like all Reliance adhesives, has a unique catalyst system that does not require refrigeration. An active archwire can be placed 5 minutes after last bracket is in place.
- **Suggested Uses** - Bracket adhesive.

Phase II® Kits

Phase II® kit with Paste in Jar with fluoride #PJF

Phase II® kit with Paste in Screw Syringes with fluoride #PSF

NON-FLUORIDE RELEASE FORMULA AVAILABLE UPON REQUEST.

NOTE: **Maximum Cure®** Sealants can be substituted for bonding resin in any kit at no additional cost. Please specify.

Individual Phase II® Components

Light Bond™

Light Cure Orthodontic Adhesive

Contents of Kit

- 20 g Paste • (2) 3 cc Sealant Resin •
- 23 g Liquid Etching Agent •
- Mixing Pad • Spatulas •
- Brushes (Sponge pellets may be substituted for brushes) •

Product Features

- **Available With or Without Fluoride** - Light Bond™ Paste and Sealant are formulated with a patented monomer that contains fluoride. It is available without fluoride in Push Syringe only.
- **Unsurpassed Bond Strength** - The Light Bond™ Paste is a highly filled material that delivers maximum bond strength in all situations with all types of appliances
- **Smooth Tacky Paste Viscosity** - The viscosity of Light Bond™ Paste is very tacky which prevents bracket flotation. If a thinner paste viscosity is desired for bonding lingual retainers and acrylic appliances, Light Bond™ Thin or Medium Paste is available. Specify when ordering.
- **Total Paste Polymerization Under All Bracket Bases** - Light Bond™ is comprised of a catalyst and filler that reflects the light to insure complete polymerization under any appliance: metal, ceramic, sapphire or plastic. Once the material has been properly cured, an arch wire can be placed immediately.
- **Ease of Removal** - Light Bond™ is a small particle glass filled material designed specifically for orthodontic use that allows maximum penetration of filler into the finest screen mesh base and removal without enamel scarring.
- **Suggested Uses** - Bracket adhesive

Light Bond™ Kits

- Light Bond™ kit with Paste in Push Syringes with fluoride.....#LBEPF
 - Light Bond™ kit with Paste in Tips with fluoride #LBETF
 - Light Bond™ kit with Paste in Screw Syringes with fluoride.....#LBESF
- NOTE: Light Bond™ Filled Sealant may be substituted for standard Light Bond™ Sealant. Non-fluoride Release Formula available upon request. Light Bond™ Paste is available in Regular, Medium and Thin viscosities. Light Bond™ can be used with any cured sealant and is available in kit form with Assure® Universal Bonding Resin (hydrophilic) or Light Bond™ Sealant. Light Bond™ is available in kit form with PRO SEAL® or L.E.D. PRO SEAL® Enamel Protective Sealant for an additional charge. Blue shade available upon request.

Individual Light Bond™ Components

- 5 g Light Bond™ Paste in Push Syringe, with fluoride#LBPPF
- 5 g Light Bond™ Paste in Tips, with fluoride #LBPTF
- 5 g Light Bond™ Paste in Screw Syringe, with fluoride.....#LBPSF
- 3 cc Light Bond™ Sealant with fluoride#LBS3F
- 7 cc Light Bond™ Sealant with fluoride#LBS7F

Pad Lock®

Light Cure Fluorescing Adhesive

Contents of Kit

- 18 g Paste • [2] 3 cc Sealant Resin •
 - 9 g Etching Agent (Liquid or Gel) • Mixing Pad • Spatulas •
 - Brushes (Sponge Pellets may be substituted for Brushes) •
- REFRIGERATION IS RECOMMENDED**

Product Features

- **Bonds Chemically to Metal** - Pad Lock® was developed to increase adhesion to even the finest screen mesh bases. The paste contains a monomer that bonds chemically as well as mechanically to metal bracket bases improving adhesion.
- **Fluoresces** - Pad Lock® Paste will fluoresce when illuminated with any ultraviolet black light. This feature allows the operation to disclose flash not removed at the time of bracket placement and adhesive remnants left at debonding.
- **Single Paste, Light Activated**
- **Compatible With All Sealants and Self-Etching Primers**
- **Available With or Without Fluoride**
- **Suggested Uses** - Bracket adhesive.

Pad Lock® Kits

- Pad Lock® kit in Push Syringe.....#PLPKF
 Pad Lock® kit in Tips.....#PLTKF
 NON-FLUORIDE RELEASE FORMULA AVAILABLE UPON REQUEST.
 NOTE: **Assure®** Universal Bond Resin or **PRO SEAL®** Enamel Protective Sealant may be substituted for standard **Light Bond™** Sealant for an additional charge.

Individual Pad Lock® Components

- 4.5 g Pad Lock® Paste in Push Syringe.....#PLPF
 4.5 g Pad Lock® Paste in Tips.....#PLTF
 3 cc Light Bond™ Sealant.....#LBS3F
 3 cc Light Bond™ Filled Sealant.....#LBFSF

Also Available

- 7 cc Light Bond™ Sealant.....#LBS7F
 7 cc Light Bond™ Filled Sealant.....#LBFS7F
 6 cc Assure® Universal Bonding Resin.....#AS
 6 ml PRO SEAL® Light Cure Fluorescing Filled Sealant.....#PRO
 6 ml L.E.D. PRO SEAL® Light Cure Fluorescing Filled Sealant.....#LEDPRO
 UV Disclosing Light.....#UVML

Assure®

Hydrophilic Light Cure Orthodontic Adhesive
Contains Fluoride

Contents of Kit

- 20 g Paste in Screw Syringes •
- [1] 6 cc Assure® Universal Bonding Resin •
- 9 g Etchant (Liquid or Gel) • Mixing Pads • Spatulas •
- Brushes (Sponge Pellets may be substituted for Brushes) •

REFRIGERATION REQUIRED

Product Features

- **Hydrophilic** - Assure® Paste is a light cure paste that will bond to slightly contaminated enamel. Assure® Paste is the ideal viscosity to prevent bracket flotation and contains fluoride.
- **Bonds to Any Enamel Type** - Assure® Universal Bonding Resin will bond to any enamel type, wet or dry, normal or atypical, including deciduous, bleached and dentin. In addition, Assure® will bond to composite and metal surfaces without any additional primer.
- **No Light Curing Required** - Can be used under any chemical, light or dual cure adhesive, regardless of manufacturer.
- **Suggested Uses** - Bracket adhesive, Wet field bonding.

Assure® Kit

Complete Assure® Kit..... #AKP

Individual Assure® Components

6 cc Assure® Universal Bonding Resin..... #AS

Quick Cure™

Light Cure Bracket Bonding System

Contents of Kit

- 20 g Paste • [2] 3 cc Light Bond™ Sealant OR [1] 6 cc Assure® Universal Bonding Resin • 23 g Liquid Etchant •
- Mixing Pads • Spatulas •
- Brushes (Sponge Pellets may be substituted for Brushes) •

Product Features

- **Reduced Curing Time** - Quick Cure™ is a new generation of light cure paste with additional catalyst for a faster and more complete cure with any curing light.
- **Choice of Sealant** - Quick Cure™ can be used with any light cure sealant and is available in kit form with Light Bond™ Sealant, PRO SEAL® or Assure® Universal Bonding Resin for an additional charge.
- **Contains Fluoride** - Quick Cure™ Paste is formulated with a patented monomer which releases fluoride. University studies have shown that fluoride is continuously released throughout the mouth without reducing bond strength.
- **Suggested Uses** - Bracket adhesive.

Protective Eyewear

Uvex Skyper®

Uvex Ultra Spec® 2000

Product Features

More and more orthodontists are using light cured adhesives and newer, more powerful curing lights. It makes sense for you, your assistants and patients to protect your eyes from the powerful light sources now being used everyday in your clinic. Reliance has sourced a very high quality, yet value priced protective eyewear from Uvex. They absorb 99.9% of harmful UVA and UVB radiation, and are available in two designs.

Order Number

- Uvex Skyper® - for use without prescription glasses.....#SG
- Uvex Ultra Spec® 2000 - sized to be used over your prescription glasses.....#SGU

UV Disclosing Light

Product Features

Take advantage of one of Pad Lock® and PRO SEAL's® unique features. PRO SEAL® and Pad Lock® will fluoresce under UV light, allowing you to check your application and coverage.

Order Number

- UV Disclosing Light #UVML

Power Slot™

Quick Curing Fiber Optic Light Guide

Product Features

Now you can significantly increase the power of your curing light by simply replacing the light director. The Power Slot™ will polymerize light cure bracket adhesives in 10 SECONDS. Reliance Quick Cure™ Paste can be cured in 6 SECONDS. The Power Slot™ fits most popular curing lights and has a patented unique flat tip design that maximizes light energy beneath the bracket base. Maximum tapered optics increase the output of your light 2.5 times to insure fast curing of any adhesive with maximum strength.

Curelastic™

Light Guide Sleeves

Product Features

Now protect and keep your light guides clean easily and inexpensively.

- 99% Light Transparent latex sleeve protects your light guide and your patients.
- Extends the life of your light guide by reducing the number of harsh sterilization procedures.
- Superior infection control.
- For use as Ear Rod covers.

Order Number

- Two sizes available:
- Standard - Fits guides 8 mm - 10 mm.....#CES
- Medium - Fits guides 11 mm - 13 mm#CEM

L.E.D. PRO SEAL® or PRO SEAL®

Light Cure Fluorescing Filled Sealant
Contains Fluoride

Product Features

- PRO SEAL® and L.E.D. PRO SEAL® are the first sealants that will completely set without an oxygen inhibited layer. This creates a smooth hard surface that protects the enamel.
- PRO SEAL® and L.E.D. PRO SEAL® are highly filled, no mix light cure sealants that resist toothbrush abrasion.
- PRO SEAL® and L.E.D. PRO SEAL® also contain a UV fluorescing agent for easy monitoring of sealant coverage.
- PRO SEAL® and L.E.D. PRO SEAL® can be used under any light cure, chemical cure or dual cure paste system. U.C.S.F. and M.C.G. tests prove the long term benefits of this enamel protective sealant.

Order Number

6 ml L.E.D. PRO SEAL®#LEDPRO
6 ml PRO SEAL®#PRO

Maximum Cure Sealant™

Enamel Protective Chemical Cure Sealant System
Contains Fluoride

Product Features

- The traditional self cure bonding agent does not totally polymerize due to oxygen inhibition. Consequently, it is rinsed away at the conclusion of the appliance bonding procedure leaving exposed etched enamel unprotected.
- Maximum Cure® Sealant will set in a thin layer. A unique catalyst system prevents oxygen interference during polymerization. The whole labial or lingual tooth surface can be sealed.
- Maximum Cure® Sealant is formulated with a patented fluoride monomer.
- Also available: Maximum Cure® Filled Sealant for longer lasting protection.
- CHEMICAL CURE SYSTEM - NO CURING LIGHT REQUIRED: With Maximum Cure® Sealant, multiple teeth can be sealed in the time it would take to cure one tooth with a light cure material.

Order Number

L.C.R.™

Light Cure Retainer Adhesive

**Contents of Kit**

- 20 g Paste • (2) 3 cc Sealant Resin •
- 23 g Liquid Etching Agent • Mixing Pads • Spatulas •
- Brushes (Sponge Pellets may be substituted for Brushes) •

Product Features

- **Longevity and Durability** - L.C.R.™ Light Cured Bonding Paste is a hybrid composite that cures to a smooth glass finish for patient comfort and reduced wear. This highly filled light cured resin paste is an excellent choice when longevity and durability are required. Simply apply according to instructions and light cure.

L.C.R.™ Kits

Flow Tain™ and Flow Tain™ L.V.

Light Cure Flowable Microfil Composite

**Suggested Uses**

- Lingual retainer adhesive
- Attachments on thermoplastic tooth aligning products
- Splinting material (e.g. fibers)
- Indirect bonding adhesive
- Arch wire stops

Product Features

- **Flow Tain™ and Flow Tain™ L.V.** are flowable light cured composites. These materials are very smooth when cured which will reduce wear and enhance patient comfort.
- **Cured Composite Flexibility** - Flow Tain™ and Flow Tain™ L.V., when cured, have a low modulus of elasticity and are not as brittle as conventional composites.
- **Flowable Viscosity** - Even though Flow Tain™ and Flow Tain™ L.V. are flowable materials, their thixotropic properties prevent them from slumping for better control.
- **Needle Tip Dispenser** - Using the tips provided, these materials are easily injected onto lingual surfaces and across fiber splints.

Excel®

Specialty Bonding Adhesive
Contains Fluoride

Contents of Excel® Regular Kit

- 12 g Catalyst Paste (A) • 12 g Base Paste (B) •
- 7 g Sealant Resin (A) • 7 g Sealant Resin (B) •
- 9 g Etching Agent (liquid or gel) • Mixing Pad • Spatulas •
- Brushes (Sponge pellets may be substituted for brushes) •

Contents of Excel® Fast Kit

- 12 g Catalyst Paste (A) • 12 g Base Paste (B) •
- 9 g Etching Agent (liquid or gel) • Mixing Pad • Spatulas •
- Brushes (Sponge pellets may be substituted for brushes) •

NOTE: Excel® Regular Herbst (for Acrylic Appliances and Splints) contains Reliance Plastic Conditioner for chemical adhesion to all acrylic appliances. Maximum Cure® Sealants can be substituted for sealants in any kit at no additional cost. Excel® Regular Paste is also available in Blue shade. Please specify.

Product Features

- **Contains Fluoride** - Excel® Paste and Bonding Resin are formulated with a patented fluoride releasing monomer that will not reduce bond strength.
- **Unsurpassed Bond Strength** - Excel® is a highly filled adhesive that provides maximum bond strength in a thin film.
- **Thin, Creamy Consistency** - Excel® Regular Set Paste is formulated in a thin viscosity to flow easily into any acrylic appliance, indirect tray or lingual retainer.
- **Extended Working Time** - Excel® Regular Set (3 minute working time) allows the operator sufficient time to spatulate the material, apply it to the appliance, place the appliance into the mouth and clean up excess flash. For individual bracket placement, Excel® Fast Set is recommended, because of it's 60 second working time.
- **Suggested Uses** - Indirect Bonding adhesive, Bonded Acrylic appliances

Phase II® Dual Cure

Sealant / Paste System
Contains Fluoride

Contents of Kit

- 18 g Catalyst Paste (A) with fluoride • 18 g Base Paste (B) •
- (2) 3 cc Sealant Resin • 9 g Etching Agent (Liquid or Gel) •
- Mixing Pad • Spatulas • Wooden Applicators •
- Brushes (Sponge Pellets may be substituted for Brushes) •

Product Features

- **Combines the Best of Both Chemical and Light Cure Polymerization** - The chemical cure working time is 4 minutes to allow several brackets to be positioned from one mix. AN initial set can be immediately achieved by light curing from any angle for 10 seconds. This will prevent the loss of bond strength due to saliva contamination. This unique dual cure process allows complete polymerization under metal brackets where light does not reach.
- **Contains Fluoride** - Phase II® Dual Cure paste and sealant are formulated with a patented fluoride releasing monomer. Phase II® Dual Cure can be used with any chemical or light cure sealant.
- **Suggested Uses** - Bracket adhesive.

Phase II® Dual Cure Kits
